GENERAL INDUSTRY & SPECIALITIES

RESINS & COMPOSITES

PIONEERING SOLUTIONS

- 10% turnover invested in high added value Research and Development
- Specialized R&D task force
- Partnerships with universities and research centers

ECO-FRIENDLY APPROACH & SUSTAINABLE DEVELOPMENT

- High-Tech and innovative systems: UV curing technology, water-based paints, bio-sourced resins...
- Continued involvement for a sustainable and responsible development
- Health and Safety commitment

SUPPORT FOR OUR CUSTOMER GLOBALLY

- High added value tailor-made developments & co-developments
- Technical assistance
- Customer training

A RECENT BRAND,
A LONG EXPERIENCE

PLANT & CAPABILITIES

Mäder Composites France - Sorgues

Tpy capacity : 5000

- Alkyd and modified alkyd resins in solvent
- Watersoluble alkyd resins
- Emulsions
- 2K polyester resins
- Additives
- Unsaturated ortho polyester resins

Walter Mäder AG - Killwangen

Tpy capacity* : 8000

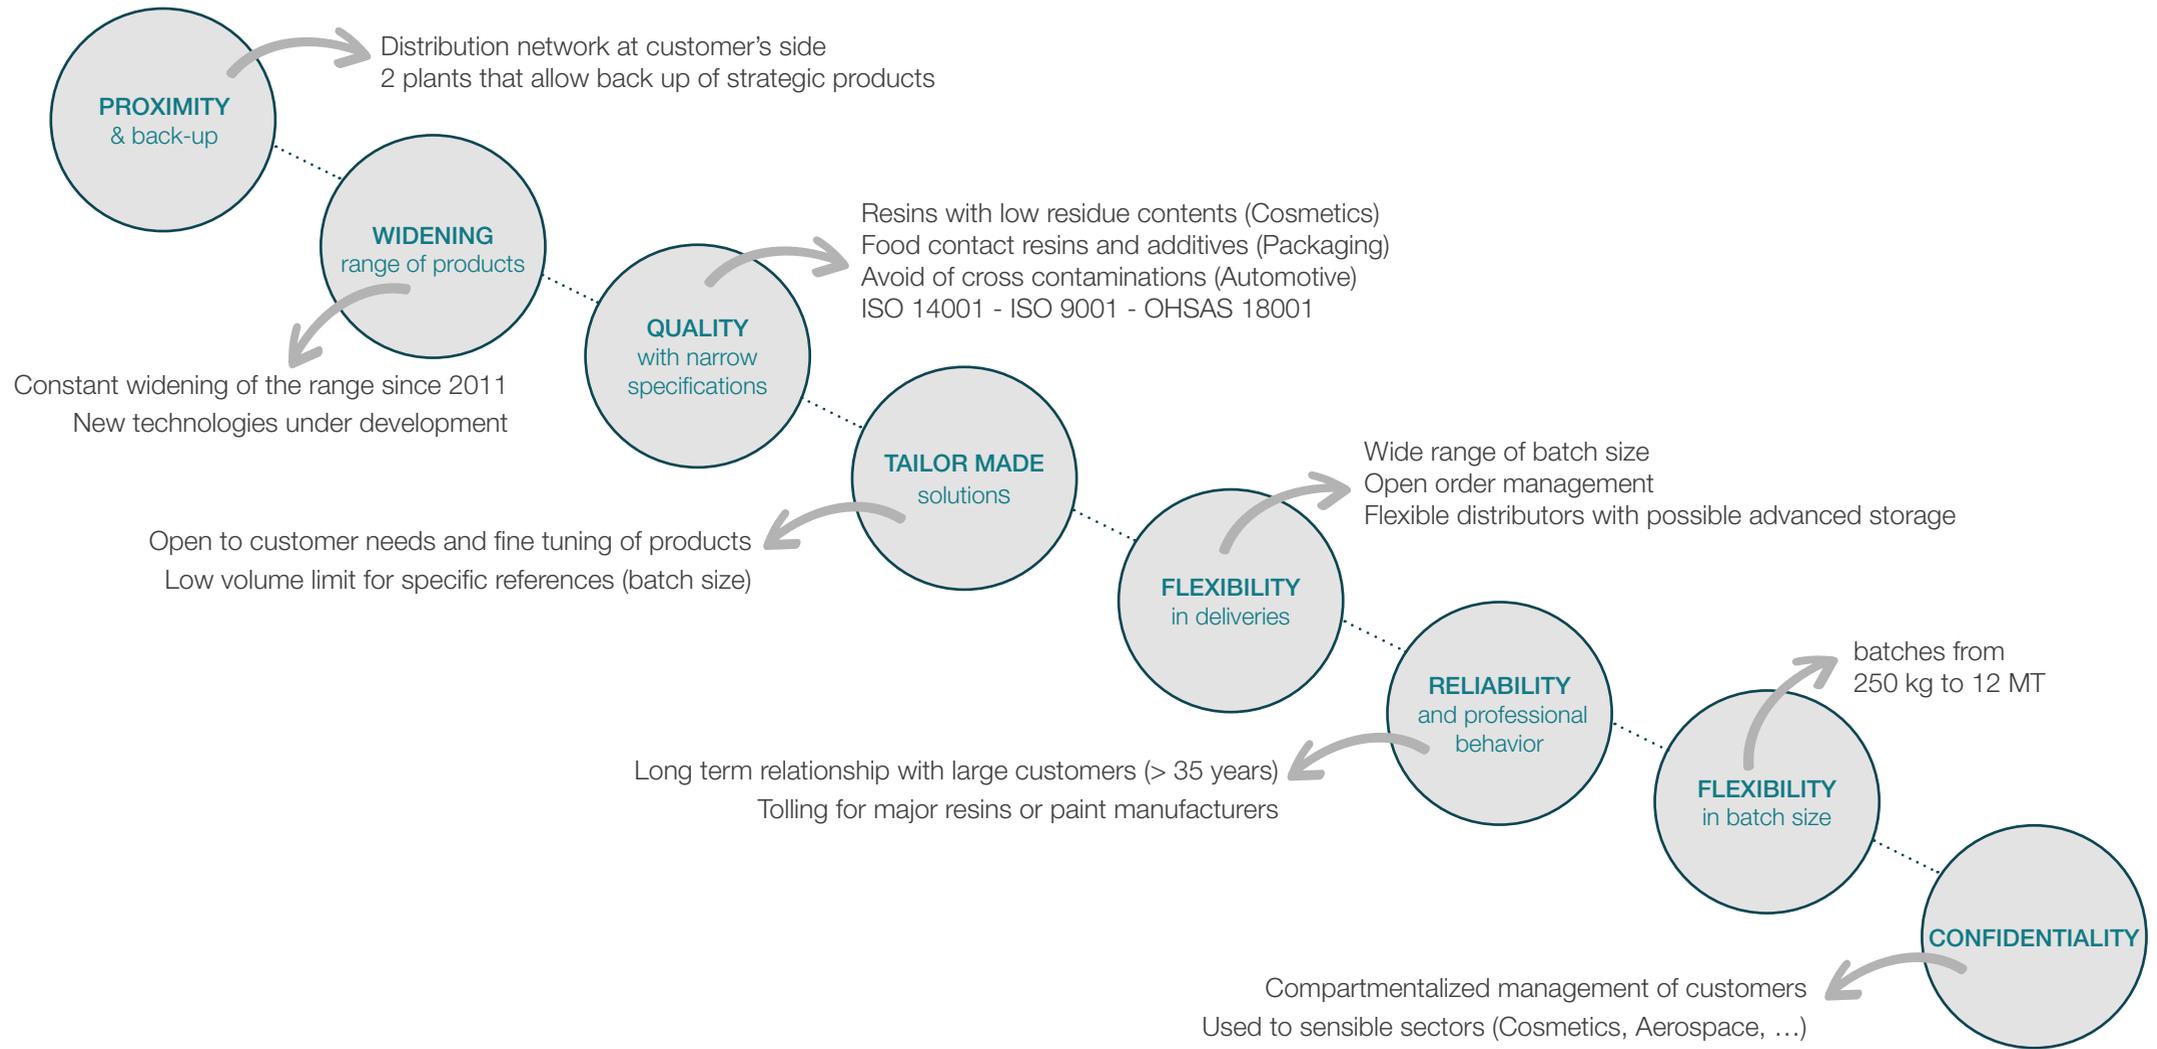

- Alkyd and modified alkyd resins in solvent
- Urethane-alkyd resins
- Watersoluble alkyd and polyester resins
- 2K polyester resins
- Additives
- Urethane-acrylate resins
- Unsaturated ortho polyester resins
- Unsaturated iso / isoNPG polyester resins

* 9000 Tpy after completion of 2019 investment plan

MÄDER COATING RESINS & ADDITIVES HISTORY

	1931 Creation of Walter Mäder AG	1955 1st Solvent Resin's production in Killwangen (under Scott Bader Licence)
--	---	---

MÄDER COATING RESINS & ADDITIVES DNA

1983	1989	2010	2011	2014	2016
Starting of UV Curing resins tolling for Rahn	Starting of Water-Soluble Resins for Omya	Acquisition of Sorgues' plant from Cray Valley (45 year's experience)	Acquisition of Omya's Resin business Starting of the creation of Mäder Resins & Additives product portfolio	Starting of Emulsions production in Sorgues	Establishment of a wide European distribution network

A RANGE OF TECHNOLOGIES &

Industrial Coatings

RAILWAY COATINGS

Polymers with high technological content developed and manufactured by MÄDER COATING RESINS & ADDITIVES constitute a solid foundation for the design of coatings and performing materials.

Within its own laboratories and in partnership with the best R&D structures, MÄDER COATING RESINS & ADDITIVES is working on new technologies for paints and for composite materials in order to answer requirements of the most demanding markets.

KNOW-HOW FITTING NUMBERS OF ACTIVITIES

DRUM, CAN and COIL COATINGS
Stoving Alkyd Resins

BUILDINGS, NAVY, PIPELINES, TANKS COATINGS
Silicone Modified Resins

GLASS COATINGS
Water reducible Polyester Resins

AGRICULTURAL, CONSTRUCTION & EQUIPMENT (ACE) COATINGS
Hydroxylated Polyester 2 pack PUR coatings
Epoxy Esters
Polyester Resins 2K system

Decorative Paints

INTERIOR COATINGS
Alkyd Emulsions

PROTECTIVE COATINGS
Alkyds & Modified Alkyd Resins
Epoxy Esters

Cosmetics

NAIL VARNISHES COATINGS
Resins & Additives

High performance properties

HEAT RESISTANT COATINGS
Silicone Modified Resins

STAIN BLOCKING COATINGS
Limed Oil & Water reducible Alkyd Resins

ANTI-GRAFFITIS COATINGS
Hydroxylated Polyesters

A FLEXIBLE OFFER FOR TOLL

Starting point of Mäder history in Resins manufacturing in 1955, tolling for third parties is a strategic activity still. MÄDER COATING RESINS & ADDITIVES offers flexible solutions for customers willing to have its products produced by an experienced manufacturer. Our high level of confidentiality is recognised by long terms partnerships running sometimes for decades.

PROCESS CAPABILITIES

- Polycondensation
- Polyaddition
- Emulsification
- Mixing

TECHNOLOGIES AVAILABLE

- Alkyds and modified alkyds in solvent
- Water-Soluble alkyds and modified alkyds
- Polyester and unsaturated polyesters
- Urethane-acrylates
- Emulsions of resins
- Mixing of resins
- Mixing of partial formulations
- ...

MANUFACTURING

OUR CURRENT CUSTOMERS

- Resins manufacturers looking for flexible production of specialty products (more than 35 years relationship)
- Paint manufacturers which own specific recipes of resins (more than 5 years relationship)
- Resins manufacturers looking for flexible mixing to produce specific pre-formulations (more than 8 years relationship)

OUR BATCH SIZES

- Resins synthesis : 250 kg to 12 000 kg before dilution
- Emulsions : 1 000 to 2 000 kg

Our kettles available for regular productions range from 0.4 to 10 m³

OUR SERVICES

- European based production site (REACH)
- Neutral or customer's labelling
- Packaging in cans, drums, IBC or bulk deliveries
- Expertise in resins production
- Confidentiality
- Flexibility

HOW MÄDER MAKES A VALUABLE DIFFERENCE?

MÄDER IS A GLOBAL, TRUSTED AND CUSTOMER-FOCUSED PARTNER

We work closely with our customers in every step of a project, from the design phase to mass production. MÄDER teams are focused on delivering comprehensive coating solutions leveraging:

- In-house expertise, developing advanced coating technologies
- Upstream thinking and co-engineering with customers
- High quality and environmental-friendly coating systems
- Technical expertise including support during industrialization phase
- Technical assistance to customers provided by a dedicated team

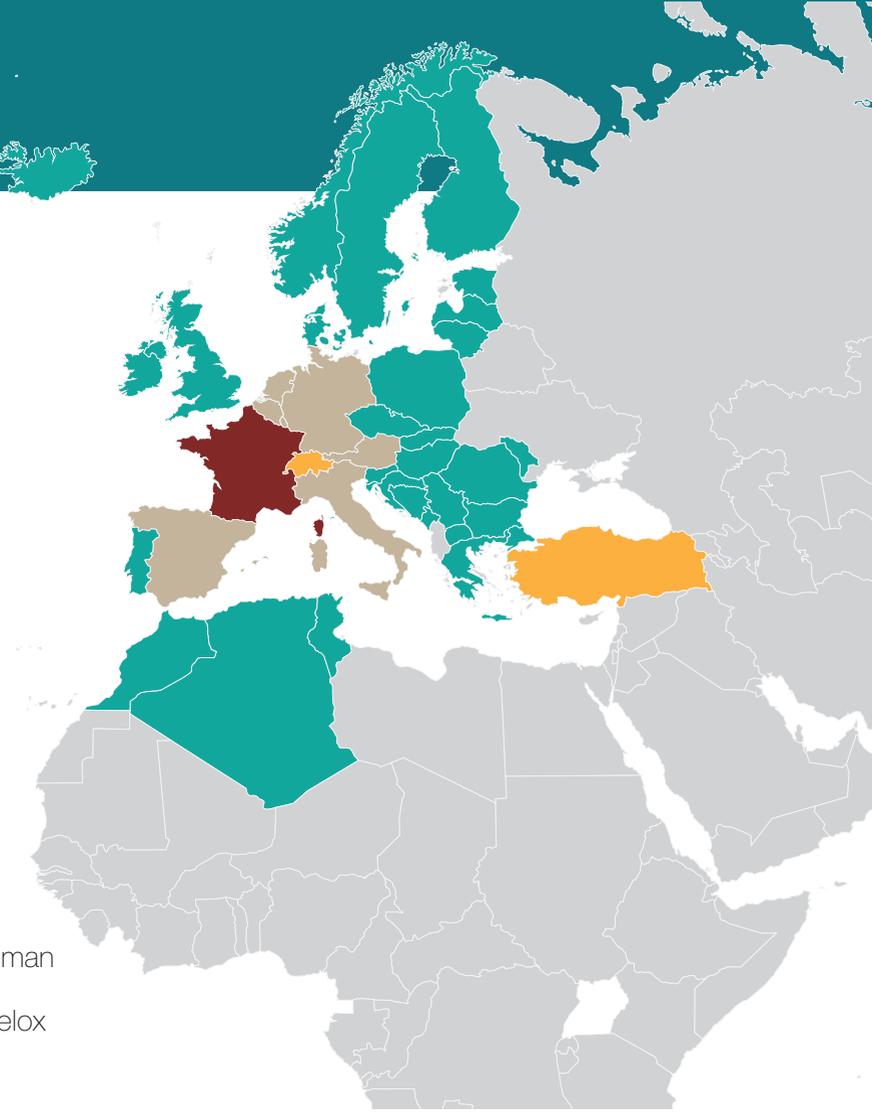

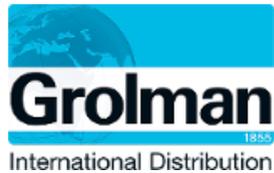

MÄDER is certified according to the major European management standards:

- ISO 9001 & OHSAS 18 001 Quality Management
- ISO 14001 Environmental Management

MÄDER products comply with the specifications of its customers and partners.
